PROFESSIONAL EXPERIENCE

Associate Accountant

Nov 2025 - Present

Finnet Global - Dubai, Islamabad

- Manage end-to-end accounting for 9 clients across F&B, hospitality, IT, and software verticals, including monthly financial statements, P&L analysis, and balance sheet reconciliations on QuickBooks, Zoho Books, and Hypos.
- Produced monthly management reports for multi-site F&B and hospitality clients, including sales mix analysis, COGS breakdown, gross margin tracking, and contribution margin assessment, enabling data-driven decision-making.
- Prepared full-suite financial statements, SoFP, P&L, Cash Flow, and Statement of Changes in Equity, for limited liability companies including real estate and parking management firms, fully IFRS-compliant.
- Delivered item-level profitability and menu engineering analysis using BCG Matrix for multi-location F&B clients, enabling strategic menu optimisation and margin improvement leading to Increased revenues and reduced costs.
- Executed monthly bank reconciliations simultaneously for multiple high-volume clients across diverse platforms, achieving high accuracy in complex, multi-currency environments.
- Processed tens of thousands of supplier and sales invoices across multi-industry client portfolios, maintaining zero backlog and ensuring accurate reporting and audit-ready records.
- Assisted in cleaning of 5 years of financial records for a UK-based client within a 5-day deadline to support a VAT audit, demonstrating high-pressure financial remediation capability.
- Built a multi-scenario financial model incorporating revenue forecasting, expense planning, and profitability analysis, used directly to support management decision-making.
- Architected an AI-powered outbound calling agent integrating Google Sheets, automated scheduling, eliminating manual follow-ups and saving 10+ hours weekly.
- Drove high-volume B2B lead generation campaigns, combining multiple Lead generation tools, CRM management, and outreach automation to build a scalable client development pipeline.
- Prepared and Submitted Quarterly UAE VAT returns for multiple clients, in compliance with FTA regulations, saving clients from potential penalties.

Happy2Tech | Happy2See | Happy Couriers - Finland (Remote)

- Built a 40+ sheet Excel workbook with automated tracking, VAT computation, and centralized controls, reducing close time by 60% and improving accuracy.
- Managed end-to-end accounts receivable across multi-platform delivery operations, reconciling delivery revenue, tips, and VAT-inclusive grand totals for 15+ courier IDs per billing period with zero financial discrepancy.
- Developed a comprehensive Compensation & Incentive Structures framework for the Intern BDO program, designing two distinct commission models with tiered bonus structures and quarterly performance reviews.
- Delivered a full-scale Digital Presence & Go-to-Market Strategy for Happy2Tech, conducting competitive intelligence on 8 Nordic IT competitors (Tietoevry, Vincit, Reaktor, Eficode, Solita.) and producing a 6-week LinkedIn content calendar with 30 ready-to-publish posts.
